X4E 7403-T

Direct to Fabric Printer

The PrintMaster Xenon X4E 7703 T Series Printers are High Speed Direct to Fabric or Sublimation Printers for printing direct to Fabric or to Sublimation paper at incredible speeds at an affordable cost. Available in options of 2 or 4 Epson i3200 Print Heads.

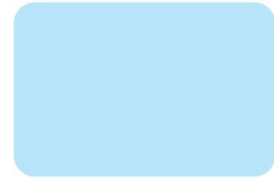

Print Heads

The design of the printer is around the new Epson i3200 Print Heads. The Epson i3200-A1 PrecisionCore MicroTFP printhead is a Print Head designed for Aqueous Inks. With a total of 3200 Nozzles in 8 rows, this is one of the fastest print head in its class. The Printer is equipped with 2 print heads and optionally with 4 print heads for even higher productivity.

Reduced Banding

Efficient Feather/Wave function helps to reduce/ eliminate banding in prints

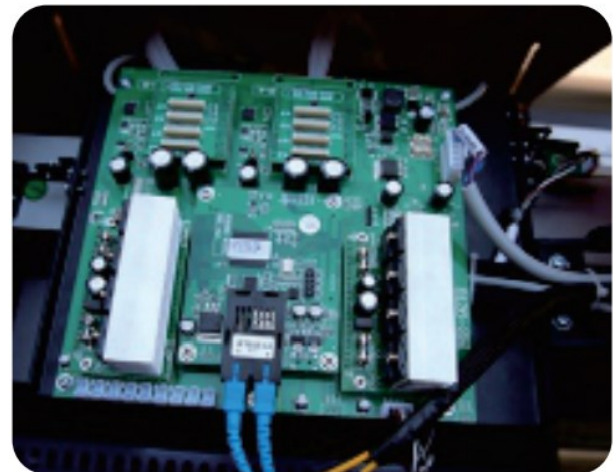

Large Capacity Ink Tanks

Equipped with 1.5L Bulk Ink Tanks for uninterrupted prints

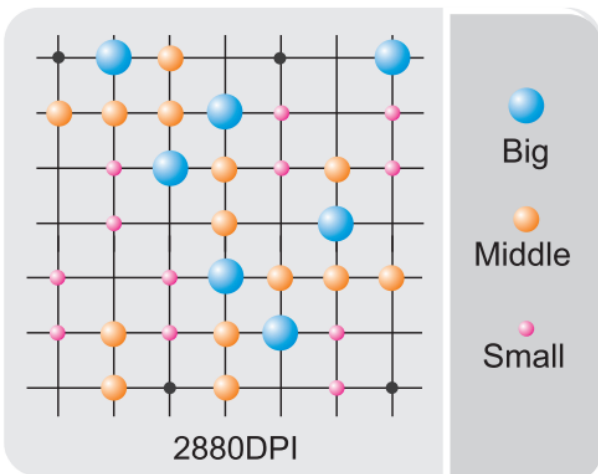

Fiber Optic Data Transfer

1.25 Gb / s data processing capacity is more than enough for transferring high-resolution images. Fiber system also has anti-interference ability, which can ensure stability during high output speed.

VSDT Technology

Xenons proprietary VSDT Technology delivers Ultra high Quality prints from 2.5 to 27pl

Heavy Duty Feed and Take Up System

The High print speed is achieved in part due to stable and heavy Duty media feed and take up system
